## Mechanical Seal Application Request form (MSARF) for Catridge seals

### Customer Details

Company Name:

Your Ref:

Contact Person:

Date:

Address:

Country

e-mail ID

Telephone No.

Fax No.

### Equipment Details

Equipment Manufacturer

Model No.

Equipment identification Tag #

Serial No.

Shaft Speed (rpm)

Seal Design according to

API Piping Plan No.

Position of the seal

Seal Arrangement

### Process Conditions

Process fluid to be sealed

Suction Pressure

Pump can be modified?

Yes

No

Stuff. Box Pressure Bar/PSI

Discharge Pressure

Nature of the fluid danger/toxic

Yes

No

Type of Flush Fluid used

ph value

Flush is Available

Yes

No

Max Part. Size ppm/Micron

Concentration in %

Dry Running ?

Yes

Yes

Temperature Max °C / °F

Support Accessories

Does the fluid is crystalize ?

Yes

No

### Atex Details

Zone

Temparture Class

Explosion Protection Type

Hazzad Type

Temparture Sub Class

Additional Info

### Dimensional Data

Notes: following dimensional details of your existing seal is required to quote the right seal

Manufacturer Name

Seal Part No.

Shaft/Sleeve OD/Seal ID

Additional Info

Stuffing Box ID

Stuffing box depth

Stuffing Box OD Regisred

First Obstruction

Pitch circle Dia (PCD)

PCD Range Min. to Max.

Stuffing box Total OD

Additional Info

Bolt Diameter

Additional Info

No of Bolts

Bolt Size & Thread Type

Seal body Meterial

Sleeve Meterial

Seal Faces Inboard

Seal Faces Outboard

Elastomers Inboard

Elastomers Outboard

Additional Info

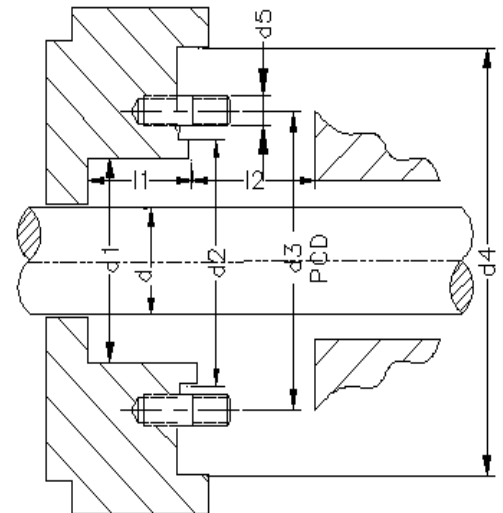

Seal Spring Meterial

Quench / Vent port Size

Flush / Drain Port Size

No of seal required

Flange Gasket Type

### Additional Information's if any

### For Officail Use Only
